Replacing Bulbs for A/C Console
I apologize if this has been asked before.

Some of the bulbs seemed to be burned out for the a/c console in my SL1 2001. Can you replace these bulbs, and if so, how do you go about doing that? Also, what type of bulbs are needed?

Thanks

1997 SL2
1993 SL2

Remove the bezel, and follow the wires till you see a bulb. It should be one or two. Tehy're really small (smaller than an LED, the same size as the ones in your cup holder) and pretty inexpensive.
